

BIO-CLEAN

ALL PURPOSE ODOR CONTROLLER AND CLEANER

The
Natural
Way

Description

BIO-CLEAN is a bio-chemical formulation consisting of a synergistic blend of several selected *Bacillus* microorganisms. This blend of bio-strains provides excellent breakdown of organic waste materials. It is further enhanced with special biodegradable surfactants, and perfumes to produce instant odor control safely and naturally, quick cleaning action and effective organic removal.

Benefits

- Quick cleaning action
- Eliminates organic fouling at the source
- Non-acid, non-corrosive, non-toxic
- Safe to handle and store

Characteristics

Biological

Bacterial strains
...fat, grease and oil digesting bacteria
...protein digesting
...starch digesting
...cellulose digesting

Bacterial count...>255 billion/gallon

Physical

Appearance..... straw colored
Odor.....pleasantly perfumed
Specific gravity.....1
pH.....neutral
Effective pH range.....4.0 – 11.0.0
Effective temperature range.....45⁰-140⁰F
Shelf life.....two year

Optimum Conditions for Use

Bacteria in **BIO-CLEAN** performs within a pH range of 4.0 to 11.0 with the optimum pH near 7.0. Temperature affects the activity of the working solution and action increases with rising temperatures up to 140⁰ F. Diminished activity can be expected below 40⁰F.

Storage and Handling

Storage..... Store in a cool, dry place. Do not freeze

Handling..... Avoid excessive inhalation.

Wash hands with warm, soapy water after handling.

Recommended Dosage

Every system is different and must be treated according to its specific organic mix and operational parameters.

Restrooms: To clean drain lines in showers, sinks, washbasins, and bathtubs use 2 oz. in each drain. This product produces the optimum results when applied at the end of the day or during the lowest period. Repeat treatment using 2 oz. weekly.

Toilet Bowls: Pour **BIO-CLEAN** on bowl swab while holding swab over bowl. Clean surfaces and under flush rims.

Urinals: Pour **BIO-CLEAN** on bowl swab while holding swab over bowl. Clean surfaces and under flush rims.

Partition: Mix 8-12 oz. of **BIO-CLEAN** to 1 gallon of lukewarm water. Clean surfaces with brush. Allow to air dry.

Floors: Mix 8-12 oz. of **BIO-CLEAN** to 1 gallon of lukewarm water. Mop floor thoroughly giving special attention to areas around toilet bowls and under urinals. Allow to air dry.

Carpet & Fabric Care: To remove odor and stains from milk, vomit, urine, feces, blood, coffee, tea, wine, smoke, etc. Check for colorfast by spraying fabric or carpet in a hidden area until wet. If any color rubs off do not use.

Laundry: Presoak or spot spray for organic stains. Mix 4-6 oz. to 1 gallon of lukewarm water

RV, Portable, & Chemical Toilets: Mix 6 oz. of product to every 5 gallons of water.
